

Phillips Blended Beef

Beef and mushroom blend that's ready to fit your needs.

Save time (and the planet) with Phillips Gourmet Blended Beef. Each 5-lb. chub is 60% ground beef, 40% mushrooms, a pinch of perfectly portioned seasonings, and 100% delicious. The mushrooms in the chub have already been cooked and moisture-reduced allowing for your finished product to hold up in whatever form it takes – burgers, tacos, or even sloppy joes! In addition to the savory umami flavor, you'll cut back on calories, fat, and cholesterol by about 40 percent! Switching to the blend also cuts your carbon footprint. For each pound of the chub, over an all-beef meal, you're saving the planet nearly 800 gallons of water.
